President's Message

The Saskatoon Figure Skating Club welcomes you to "Hollywood on Ice". As our Club begins its Second Quarter-Century of Carnivals, we proudly present for your entertainment, a panorama of the Motion Picture industry from the Old Flickers to Cinemascope.

We know you'll enjoy the outstanding performance of Maria and Otto Jelinek, the 1962 World Pairs Champions, as well as that of our cast of 300 Club Members.

This season has been one of advancement and achievement for our Club Members. Six First-Place Awards were won by members of our team at the Prairie Sectional Championships held at Weyburn in January. As well, there have been over 125 Dancing and Figure tests passed so far this year, several of these being the higher tests.

As in the past, your patronage is very much appreciated. You have provided the opportunity for our Club Members to display their talents, we sincerely hope we have provided you with an evening's enjoyment.

CLUB EXECUTIVE

President R. D. Bowman
Recording Secretary Evelyn Willie
Business Secretary Jean Norman
Treasurer Ron Matcham

Directors—H. R. Larson, O. M. Alford, M. Hepburn, R. Graves, Frank Weir, Graham John, C. Everson, C. Downton, W. A. Friebel, W. M. English, Mrs. J. Leard.

JUNIOR PAIRS AND SOLOS

"RHUMBA RHYTHM"

SCHOOL FIGURES

Figure skating originated by efforts of skaters to draw geometric figures on ice. This art still forms one of the three branches of figure skating as we know it today. The other branches which followed in later years are free skating and ice dancing.

As Geometry is an exact science, so are the demands of skating school figures very exacting and precise, requiring a high degree of co-ordination of nerves, mind and body, achieved only by many hours of practice.

The figures are based on the circle, forming eights and three lobed designs. Intricate turns are added to the circles increasing the degree of difficulty. The adopted figures are forty in number ranging from the elementary circles to the most complex patterns.

The rules of performance are extremely rigid. The figures must be skated on one foot, both forward and backward, beginning with either the right or the left foot.

To reach the top a skater must pass nine tests, a preliminary, and eight regular tests. The eighth or gold test is the crown of achievement which few attain. However, the constant challenge presented by the skating of figures makes this a very absorbing and rewarding recreation for both sexes of all ages

The figures skated at the first of our program were drawn from the following compulsory figures and were skated by:—

Judy Haight — Bev McNair; Dale Hazell — Bruce Roadhouse.

Counters and Change Double Threes:

Karen Flichel — Sharon Lee; Peggy Matcham — Jackie Flichel.
